

Voluntary Industry Code for RTDs

We, the members of the Distilled Spirits Association of New Zealand, have developed the following Voluntary Industry Code for ready to drink beverages and have committed to abide by the details hereunder.

Ready to drink beverages (commonly referred to as “RTDs”) have been part of the New Zealand beverage landscape for many decades. They offer a convenient beverage format providing consistent pre-measured amounts of alcohol, as measured by standard drinks. This, together with clear labelling information about alcohol content, can assist consumers to more accurately measure their alcohol intake.

New Zealand’s leading producers and marketers of ready to drink beverages recognise that RTDs can be a beverage popular with younger consumers. Therefore, extra special attention is required in the product development and marketing. Furthermore, New Zealand’s leading producers and marketers of ready to drink beverages are united in implementing a voluntary set of steps to better ensure these beverages are enjoyed within the ‘norm’ of responsible alcohol consumption in New Zealand.

Definition:

For the purposes of this VIC, an RTD is defined as:

- i. *a spirit-based alcoholic beverage mixed/diluted to an Alcohol by Volume (abv) range of 4% up to 14% (above which products become liqueurs as per S73,75 of the Customs & Excise Act 1996); and*
- ii. *sold in a primary package intended for single serve (i.e. in a vessel with contents of 500mls or less).*

The members of the DSANZ commit to do the following:

1. Limit the production and/or distribution of RTDs to a maximum alcohol strength of 7% ABV and a maximum of two standard drinks per single serve container to all licensed premises in New Zealand.
2. Not produce RTDs containing energy supplements with greater caffeine-equivalence than cola products as set out in Standard 1.3.1 “Food Additives” of the Australia New Zealand Food Standards Code, which limits the amount of added caffeine in these products to a maximum of 145 mg/L. Nor, will we market/promote the effects of caffeine in any products that meet this commitment.

3. Ensure that the number of standard drinks in each container is clearly visible and displayed on both primary and secondary packaging.
4. Ensure that RTDs are marketed in accordance with the *Code for the Advertising & Promotion of Alcohol* and *Section 237* of the *Sale & Supply of Alcohol Act 2012* so they do not have specific appeal to, nor are targeted at, those below legal purchasing age (LPA).
5. Advertise only in media channels or engage in sponsorship where the audience is at least 75% LPA and above.
6. Pro-actively work to improve the drinking culture in New Zealand and help minimise harmful consumption, through industry funded initiatives, such as *The Tomorrow Project* (www.cheers.org.nz).
7. Work with our retail customers to encourage compliance with this code taking due note of all relevant legal constraints (such as those defined by the Commerce Act 1986).

RTDs which do not comply with the above commitments will be progressively removed from the manufacturing and distribution process from March 2013 with the intention that they no longer be supplied into the retail network from the end of September 2013 onwards.
